# Introduction

The Definition of the Evaluation Domain (DED) ensures consistency between a course and the related evaluation instruments. The DED is used to select, organize and describe the essential and representative elements of the course. The DED is based on the program of study and the course, but should by no means replace them in the planning of instructional activities.

The DED is the reference document that ensures the validity of the examinations across the province. This document serves as a framework for developing multiple equivalent versions of an evaluation instrument.

The DED for each ministerial examination is developed by the Ministère de l'Éducation, du Loisir et du Sport (MELS). The DEDs for other types of examinations are developed by MELS or, at the request of school boards, by Société GRICS (BIM). For ethical reasons, only those responsible for developing Definitions of the Evaluation Domain can modify their content.

Examinations developed by MELS are consistent with the content of their respective DEDs. It is recommended that all other examinations be in agreement with the DED.

# **Specifications for the Evaluation Instruments**

#### **Examination: Number of Parts, Sections, Procedure and Duration**

The examination consists of one part divided into four sections, with a total duration of 180 minutes. The sections may be administered in the same exam session or during different exam sessions, in the order most relevant to the real-life situation.

Section – *Interacting orally*: 30 minutes (25 minutes for the preparation and 3 to 5 minutes for the interaction)

Section – Listening to informative texts: 30 minutes

Section – Reading informative and expressive texts: 60 minutes

Section – Writing informative and expressive texts: 60 minutes

#### **Examination Content**

The examination focuses on a real-life situation pertaining to the adult learner's everyday home life (e.g. celebrating special occasions, performing household chores, dealing with utility service people) and staying informed about daily news (e.g. finding out about local news and community events, checking weather and traffic conditions). As well as interacting orally, the adult learner will be required to listen to, read and write informative and expressive texts. When possible, the task or tasks pertaining to the real-life situation will measure more than one evaluation criterion.

# Section – *Interacting orally*

#### Section – Reading informative and expressive texts

The adult learner reads an informative text (e.g. ad, chart, product label) and/or an expressive text (e.g. card, note). To demonstrate understanding of the main idea, specific details and emotions conveyed in the texts) the adult learner may be required to complete a questionnaire and/or other documents relevant to the task.

#### Section – Writing informative and expressive texts

The adult learner produces an informative text (e.g. list, note, timetable, form) or an expressive text (e.g. note, card), approximately 100 words in length. As well as evaluating the adult learner's ability to express thoughts and feelings and to organize information, this section of the examination evaluates his/her ability to use correct grammar, spelling and punctuation.
